If it's not, you can still play, but it
will be 20% less fun.

Ok, fine! There is a cheat code that lets u change the weather. Are u SURE u wanna do it, though? I kinda feel like you shouldn't, but it does exist!

Ok, you're sure?
The cheat code is the number at the bottom of the "movement" page! Type it in to the game to enter Gosh Mode. Don't say I didn't warn ya!
