Epilepsy Warning

Some people may experience photosensitive epileptic seizures or a loss of consciousness when viewing certain visual stimuli, such as flashing lights or patterns, in everyday life. Such individuals are at risk of experiencing seizures while watching television or playing video games. This can happen even to individuals with no history of related health conditions or signs of epilepsy.

The following symptoms are characteristic of photosensitive seizures: blurred vision, eye or facial twitching, trembling arms or legs, disorientation, confusion or momentary loss of balance. During a photosensitive seizure, loss of consciousness and convulsions may cause serious accidents, as these symptoms are often accompanied by a fall. If you notice any of the above symptoms, stop playing immediately. It is strongly recommended that parents supervise their children while playing video games, as children and adolescents are often more prone to photosensitive seizures than adults.

If any such symptoms occur, **STOP PLAYING IMMEDIATELY AND SEEK MEDICAL ADVICE**. Parents and guardians should keep children in sight and ask them if they have ever experienced one or more of the above symptoms.

System Requirements

Minimum System Requirements PC

- Windows 7, 8, 10
- Dual-core Intel® Core 2 Duo or Athlon® 64 X2 4800+ or comparable processor running at min. 2.6 GHz
- DirectX 9.0c compatible graphics card (Intel® HD Graphics 4600, NVIDIA GeForce GTS 250 or ATI Radeon HD 3850 or better) with min. 512 MB VRAM 2 GB RAM
- Mouse with scroll wheel, keyboard
- 1500 MB free hard disk space
- DVD-ROM drive
- Internet connection and Steam account

Minimum System Requirements Mac

- OS X 10.8 or later
- Intel® Core i5-3210M or comparable processor running at min. 2.6 GHz
- Intel HD Graphics 4000 or GeForce GT 650M or better with min. 512 MB VRAM
- 4 GB RAM
- Mouse with scroll wheel, keyboard
- 1500 MB free hard disk space
- DVD-ROM drive
- Internet connection and Steam account

Installation and Start

NOTE: The product is subject to your acceptance of the terms and conditions of Steam subscriptions ("Steam Subscriber Agreement, SSA"). The product must be activated over the internet by registering a Steam account and accepting the SSA.

Further Requirements and Help

The installation requires a one-time internet connection for the authentication as well as the Steam client (included with the game).

Windows PC Installation

Please ensure that your computer is connected to the internet before starting the **Oil Enterprise** installation process. Insert the **Oil Enterprise** disc into your computer's disc drive. During the installation process, a one-time online check will be carried out to verify the disc. An activation file will then download, which will require a product code. You will find the code on the back of this manual.

Insert the disc into your disc drive. After a few seconds a window will appear on the screen. Follow the instructions for the installation, selecting the folder in which you would like to install the game. If the program does not start automatically, double-click My Computer on your Windows desktop. Then double-click your disc drive icon, followed by the installation file icon "**setup.exe**".

Starting the Game

Following successful installation, launch the program by selecting **Start/All Programs/Steam/Oil Enterprise** in the Windows Start menu or via the corresponding icon on the desktop.

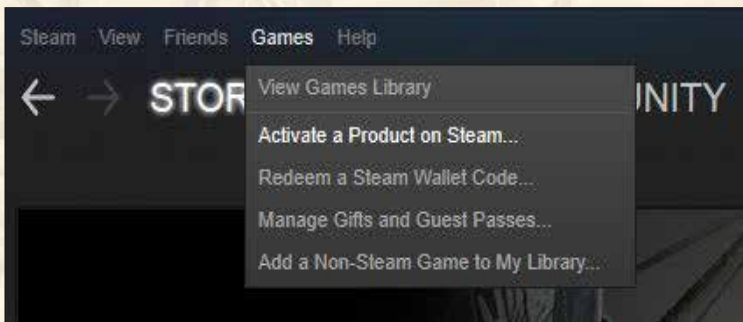

If you encounter security messages when launching the autostart menu on Windows 7, Windows 8 or Windows 10, please note that it is safe to run the "setup.exe" program.

Uninstallation

Select **Start/Settings/Control Panel/Software** and choose the "Oil Enterprise" entry. Then click on the **Add/Remove** button. The program itself, as well as files and game data, will then be uninstalled.

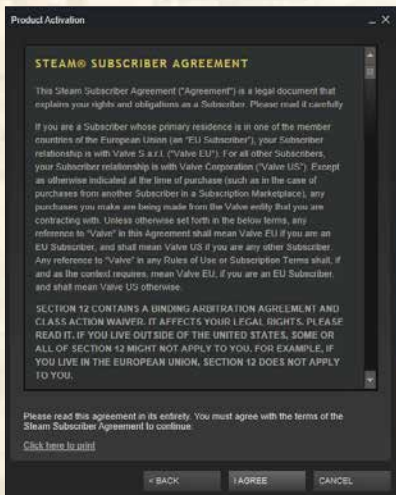

Register Oil Enterprise in STEAM®

Thank you for purchasing Oil Enterprise. To add the game to your STEAM® library, open the program and log into your account. Creating an account is free of charge. Once you have logged in, the STEAM® homepage will open. Now click on the "Games" tab and then on the "Activate a product on Steam..." option.

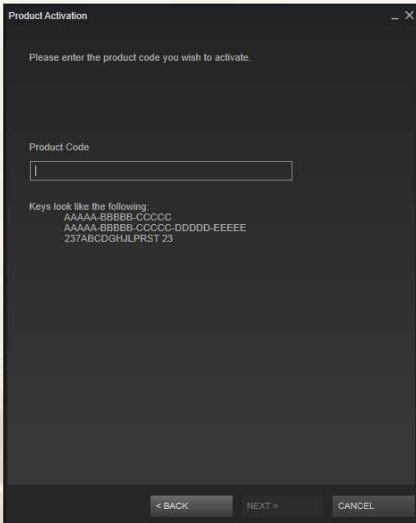

The Product Activation window will open. Here, click "Next" to continue the process.

In the next window, you will have to agree to the STEAM® Subscriber Agreement to continue. You will then be able to enter the 12-character STEAM® product code.

You will now be asked to enter your 12-character product code in this window. You will find this product code on the back of this manual.

It looks like this:
XXXXX-XXXXX-XXXXX

Please enter your individual sequence of characters with the hyphens in the designated "Product Code" box.

Then click on "Next" to complete the process.

If the entry is not successful, please try the following solution:

- Check your product code for any input errors
- Zero and/or the letter O can be easily confused

After a successful product activation, you will be able to print a receipt. The game will now be in your STEAM® library and can be installed and launched.

Introduction

In **Oil Enterprise**, you enter the multi-million dollar business of black gold as a shrewd businessman. Accept the challenge and grow from a small-scale entrepreneur, investing in your first oilfield, to a global oil magnate. Acquire oil production rights in up to 15 regions around the world and use the potential of your oil reserves as efficiently as possible on the dynamic global market. Fulfill lucrative long-term contracts to improve your reputation and make your cash registers ring. But watch out! Make a wrong investment or fail to meet contractual obligations and your company could be in danger of going bankrupt.

The Main Menu

You can access the game's various submenus via the Main Menu.

Network game

Under "Network game" you can take on one of many scenarios with up to eight players on a local network and see how you measure up against the other players.

Start scenario

Under "Start scenario" you can start a range of predefined scenarios and put your skills to the test by fulfilling various goals and targets. If you start the "Tutorial" scenario, you will be given a comprehensive introduction to the game.

Continue/Load game

Resume your saved game by selecting "Continue" or load an old save by choosing "Load Game".

Free play

In "Free play" mode, you can define your own starting and victory conditions.

Settings

You can adjust various game, graphics and sound settings under "Settings".

Credits

Here you can see who was involved in making the game.

Open forum

If you need information, updates or help with the game, you can access the official developer forum under "Open forum".

Write review

The option "Write review" allows you to write your own Steam review for the game – your opinion is important to us!

End game

Click on "End game" to return to the desktop.

In Game

World Map

The world map shows you all the available oil production areas. You need a regional license to access a region. Once you have unlocked a region, you can purchase oilfields and exploit the oil reserves. The items "**Construction time**", "**Construction costs**", "**Maintenance**" and "**Safety**" vary from region to region.

Headquarters

The headquarters are your oil company's main office and your personal calling card. Here you can purchase various buildings to increase, for example, your company's pump production volume or its capacity limits.

Oilfield

Here you will find a brief overview of all your oilfields along with their daily production volumes. The arrow will take you to the respective oilfield.

Lightbulb

If ever you don't know what to do, click the lightbulb icon for useful information, or alternatively press F1 on your keyboard.

Map

The map in the bottom left corner of the screen shows the current area and game date, and provides you with information on the daily oil output and your current oil reserves. Clicking on Pause will pause the game. Click on Play to resume the game at normal speed and on Fast forward to increase the speed of the game. The Account balance shows you how much money you currently have.

Production Overview

The Production Overview provides information on your capacity and utilization of pumps, refineries, storage and logistics.

Expand Oilfield

Expand your oilfield by building additional pumps, refineries and storage.

Free Market

On the free market you will see the market price of oil per barrel over the last twelve months and can sell your stocks.

Available Contracts

Beside the free market, you can also generate revenue by signing contracts. Note the different conditions here and that you will have to pay contractual penalties if you are unable to deliver the contractually agreed quantities of oil on time.

Oilfield Info

Here you will find all the interesting facts about the current oilfield, such as its size, deposit size and the current yield.

Maintenance and Safety

Servicing and maintaining your buildings is important to guarantee oil production and not least the safety of your oilfields.

Cost Analysis

Here you will see a cost analysis for your company per year.

Scenario Goals

Here you can find out the goals that need to be fulfilled to complete the scenario. When in free play you will only be subject to the goals you have set yourself.

News Ticker

Here you will find an overview of new supply contracts and information on completed construction processes.

Game Menu => Company Data

Here you can change the master data of the corporation, such as the name, oilfield name, logo and company color.

Repair/Demolish Buildings

If you need to repair a building, left-click it and then carry out a repair. Note that a repair costs time and money and you yourself will need to know when a repair is worthwhile. If a building is in the way or repairing it is too expensive, you can completely demolish it and redevelop the reclaimed land.

Keyboard Commands

Mouse/keyboard	Function
SPACE	Change game speed
Q	Rotate camera left
E	Rotate camera right
W	Move camera up
S	Move camera down
ESC	Close window
F1	Help
Left shift + left mouse button	Place multiple buildings
Scroll wheel down	Zoom in
Scroll wheel up	Zoom out

Support

Do you need help with a job or are you looking for news about Oil Enterprise? Visit our STEAM® forum:

<http://steamcommunity.com/app/353630/discussions/>

Before contacting our support team, first check and, if available, update the drivers on your PC. Many graphics and sound problems can be resolved by simply updating the drivers.

If you have any questions about this product which have not been covered in the manual, you can contact the astragon Entertainment support team as follows:

Phone: **+49 (0) 180 7004 709**

(The first 30 seconds are free, then €0.14/minute from a German landline, max. €0.42/minute from a mobile network)
